Spotlight on Business

Bogy Construction, LLC

301 North Harrison Street, Princeton, NJ 08540

Darko Radojck, Owner

973-953-8381 * www.bogyconstruction.com

We have extensive experience in building house additions, working with a wide range of house types. We offer both pre-construction and construction services, so that our customers can make informed decisions that result in projects that exceed their expectations, as well as increase the value of their home.

The company has built a number of new structures, including single and multi-family houses. We have an excellent record of successfully overcoming unusual obstacles in both below and above grade construction, dealing with underground water, as well as providing energy efficient construction solutions. Our experience in renovations and remodeling ranges from small upgrades, to completely transforming the look and function of various spaces. Our magazine-featured projects, as well as historical structure restorations, illustrate the exceptional quality and unique appeal of our craftsmanship. Numerous remodeled kitchens, bathrooms, powder rooms, living, dining and family rooms, finished basements, attics, and exterior projects, provide us with confidence that we can realize even the most innovative and unusual ideas.

We collaborate with each customers' architects and designers. We have developed close working relationships with a number of New Jersey architects, interior designers and engineers. Thanks to these relationships, we can also help our customers seamlessly bridge the gap between their ideas and the project design and planning process.

We always enjoy working with local businesses that provide a personal touch. This is why we decided to bank with The Bank of Princeton.
