Brothers Pizza on Route 33 is a family owned and operated pizzeria and restaurant, est. 1973, in the heart of Hamilton Square, NJ. Known for and voted several consecutive years as the best pizza in town, but don't let that stop you from trying one of our traditional Italian dishes or a tasty Philly cheese steak. Our secret is creating every dish using only the freshest, and finest ingredients. Our menu, family style ambiance, and quality service create a truly enjoyable dining experience.

Brothers, Antimo and Gennaro, have owned and operated this family owned establishment for over three decades, and served over I million pizzas. In 1991, they participated in making the Worlds Largest Pizza, which made it in the Guinness Book of Work Records. With a desire to succeed, after migrating to the U.S.A. in the 70's, the two brothers worked many passionate hours to create what has now become a landmark in the heart of Hamilton Square, NJ.

We strive not only to concentrate on making the food great but to do our best to make every customer's visit the finest, whether it is their first or a daily routine. Our customer loyalty is the backbone of this establishment. We appreciate them and their families as they have grown with ours while continuing to pass down a tasty and memorable experience from one generation to the next.

We bank with The Bank of Princeton not only because it is a community bank, but because of the excellent and personalized customer service we receive at the Hamilton office.
