After 32 years of services in the Pennington, NJ area, we have come to know many of our fellow business owners and colleagues, and consider Mercer County our home.

Formed in Trenton NJ in 1978, our law firm handles most matters that the average family will encounter, such as wills, estate planning, municipal court and traffic offenses. In addition, Mr. Mullaly specializes in immigration matters for the individual and corporate clients, representing local colleges and businesses. We started our business to be able to practice law together and to provide services to the average family like ours. We relocated to Pennington in 1990 and then to Ewing in 2000, where we continue to offer sensibly priced legal services in an informal environment. Our small size makes our services more personal and each client is assured of our direct attention. We chose to bank with The Bank of Princeton because of its courteous staff and outstanding customer service.
