We bank with The Bank of Princeton for several reasons. The service is impeccable and the convenience of having them next door is a plus. The staff is a pleasure to deal with. From the personal service I receive when I walk through the door to the fact I never have to wait in any lines. I'm in and out quickly, which is important especially in my business when time is of the essence. I highly recommend to anyone looking to change banks to definitely switch to The Bank of Princeton. They are certainly customer friendly.
