Suburban Wrench, Inc. has been in business for 31 years servicing most make and model vehicles and selling pre-owned vehicles. Our President, Michael Warner Sr., started with The Bank of Princeton when they first opened. He chose The Bank of Princeton because it is a small community bank and because of its friendly, one on one customer service. The Bank of Princeton has helped Suburban Wrench with the capital needed to increase our used vehicle inventory. Dealing with The Bank of Princeton has been an easy and enjoyable experience.
