I am an integrative endocrinologist; which means that I care for people with endocrine conditions and treat them using the best of various treatment modalities including nutrition, pharmaceuticals, herbal preparations, supplements, and mind-body techniques whenever appropriate. I opened my practice in 2012 with the vision of providing comprehensive, compassionate care to patients with endocrine disorders. My practice is fee for service.

I chose The Bank of Princeton when I needed to open a business account. A friend recommended them because of their excellent customer service. I started to bank with The Bank of Princeton at the time I started my business, in September 2012. So they have been with my business since the beginning. The Bank of Princeton helped me get set up with my business banking needs. For that, I am grateful.
